Definition. Generally, food loss or food waste is food that is lost during any of the four stages of the food supply chain: (1) producers, (2) processors, (3) retailers, and (4) consumers. Precise definitions are contentious, often defined on a situational basis (as is the case more generally with definitions of waste).

White Clover " This is what my living mulch should soon look like. Photo by Martin LaBars. I mentioned in my post about building raised beds that I chose to add New Zealand white clover to the edges of the raised bed to act as a living mulch. First off, I should explain what a living mulch is, and how it differs from a cover crop:
